

DAIRY QUEEN GRILL AND CHILL MARQUETTE, MICHIGAN

Scope: The project consists of a free-standing wood frame structure with exterior insulation and finish systems (EIFS), simulated stone veneer, and PVC membrane roofing.

The facility is comprised of a full commercial kitchen, drive through, walk-in cooler and freezer, fire suppression system throughout, and a dining area. Equipment, furniture and décor comprised the Owner-purchased, Contractor-installed items with the Contractor supplying all necessary supports, backing, electrical & mechanical connections.

Pedestrian safety was of prime importance during all phases of construction. The project is located in what was an existing parking area adjacent to a large department store.

Owner: Brook Trout Holdings, LLC

Project Location: Marquette, MI

Architect: U.P. Engineers & Architects, Inc.

Project Duration: 3 months

Project Completed: August 2015
